Mobile Diagnostics. Maximum Impact.

Revolutionizing Point of Care Testing

The Star Lab Cart is a next-generation mobile diagnostic solution designed to bring lab-quality testing directly to the patient's side. Powered by the industry's most trusted Point of Care devices—Abbott i-STAT, Piccolo Xpress, and PixCell Medical's HemoScreen—Star Lab Cart delivers fast, accurate results that empower clinicians to make informed decisions in real time.

Integrated Excellence

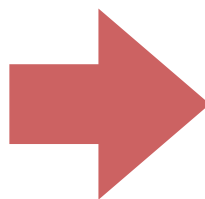

The i-STAT® System offers a broad menu of tests related to disease state management and clinical practice guidelines. Using just two or three drops of blood, this with-patient diagnostic system provides time-sensitive results in just minutes.

The Piccolo Xpress menu of chemistry tests is the broadest of any point-of-care analyzer, with 31 chemistry tests across 16 complete panels, including the market's only CLIA waived comprehensive metabolic panel.

PixCell Medical, an innovator of rapid hematology testing solutions at the point of care, has developed the only 5-part differential Complete Blood Count (CBC) analyzer that is FDA-cleared, CE-marked, and TGA-approved for point-of-care use – the HemoScreen™. This portable, easy-to-use platform offers clinically proven lab-accurate readings of 20 standard blood count parameters within five minutes, with just one finger-prick of blood. This facilitates fast diagnostic results and data-driven disease management decisions.

**Customize your Star Cart
with the Point of Care
devices that best elevate
your facility**

Designed for Mobility. Built for Care.

- Compact & Maneuverable: Easily navigates tight clinical spaces.
- Connectivity Ready: Seamless integration available with EMRs and LIS systems.
- Minimal Maintenance: Cartridge-based systems reduce downtime and training requirements.

Versatility Across Care Settings

Whether in Emergency Departments, ICUs, Outpatient Clinics, or Remote Care Sites, Star Lab Cart adapts to your workflow, delivering rapid diagnostics that improve outcomes and reduce patient wait times.

Elevate Your Point of Care Strategy

Star Lab Cart isn't just a mobile lab—it's a commitment to patient-centric care, clinical efficiency, and diagnostic excellence. Empower your team with the tools they need, right where they need them.
